

# Nasser Mohammed Alzaid

Riyadh, SA | +966559933073 | [Nasermz.0110@gmail.com](mailto:Nasermz.0110@gmail.com) | [www.linkedin.com/in/nasser-alzaid-7b6886212/](https://www.linkedin.com/in/nasser-alzaid-7b6886212/)

## SUMMARY

Artificial Intelligence graduate focused on Agentic AI and building end-to-end intelligent systems using LLMs, RAG, LangChain, LangGraph, FastAPI, Docker, and AWS. Hands-on experience developing AI agents with tool use, memory, retrieval, and workflow automation, as well as deploying machine learning and AI applications into production-ready services. Strong foundation in Software Quality Assurance and Test Automation, supporting the development of reliable, scalable, and well-tested AI solutions for real-world production.

## EXPERIENCE

### Tuwaiq Academy| Riyadh, SA

Software Testing & Automation Bootcamp Trainee| June 2026 – July 2026

- Completed an intensive Software Testing & Automation Bootcamp covering Manual Testing, Test Automation, STLC, SDLC, Agile, and ISTQB best practices.
- Developed end-to-end automated test suites with Cypress for web applications.
- Performed functional, regression, API, security (Burp Suite), and performance testing (Apache JMeter).
- Awarded Outstanding Student for exceptional performance throughout the bootcamp.

### LOBK Organization| Remote

Leader of Tech & Digital Transformation Committee | July 2025 – June 2026

- Led development of the official web platform ([lobk27.com](https://lobk27.com)) using React.js and TypeScript
- Managed deployment and version control using GitHub and Render
- Coordinated development tasks and improved team collaboration through structured workflows.
- Mentored members on web development fundamentals and best practices
- Resolved collaboration challenges by implementing proper Git workflows (branching & merging strategies)

### AWSCloudClub IAU | Dammam, SA

Head of Development Unit | November 2024 – February 2025

- Led development of AI-powered and cloud-native applications using AWS services.
- Designed and deployed storyteller AI using Amazon Bedrock
- Built and deployed production-ready AI chatbot.
- Organized and led workshops on AWS Cloud tools for students and club members.

### COOP Training at IAU | Dammam, SA

ML model trainer, Backend Developer | June 2024 – August 2024

- Built and evaluated ML models for HR prediction and bankruptcy detection using Python and Scikit-learn.
- Deployed models into Django-based web applications with real-time prediction functionality, managing backend logic and server configuration
- Built full-stack solutions (HTML, CSS, JavaScript) and resolved challenges in data integration, model tuning, and deployment through hands-on experimentation.

## EDUCATION

### Imam Abdulrahman Bin Faisal University | Dammam, SA

Bachelor’s degree in Artificial Intelligence. | August 2020 – July 2025

- Achieved 3rd place for best graduation project: “QA AI Testing Agent”, an intelligent agent that automates software testing using artificial intelligence techniques.

### Saudi Digital Academy (SDA) | Riyadh, SA

Agentic AI Engineering Bootcamp | August 2026 – Present

### Tuwaiq Academy | Riyadh, SA

Software Testing & Automation Bootcamp Trainee| June 2026 – July 2026

- Awarded Outstanding Student for exceptional performance throughout the bootcamp.

## OTHER

### ● Certifications:

ISTQB® Certified Tester Foundation Level (CTFL) In progress | NVIDIA® Certified — Building Transformer-Based Natural Language Processing Applications | SDAIA ® — Advanced Agentic AI Systems Engineering Certificate of Achievement

### ● Projects:

- QA Testing Agent | Python, LLMs, Playwright, FastAPI, Browser Automation, Supabase | Built an AI-powered software testing agent using FastAPI, Playwright, and LLMs to generate, execute, and evaluate intelligent web test scenarios with automated reporting.
- SOCVision – AI-Powered SOC Platform | Docker, Django, Python, PyTorch, Scikit-learn | threat detection, ML-based attack classification, log analysis, and AI-assisted security dashboards.
- AgentCore FAQ Assistant | Python, AWS Bedrock AgentCore, LangChain, FAISS, RAG | Developed a memory-enabled AI assistant using AWS Bedrock AgentCore, LangGraph, LangChain, FAISS, and HuggingFace embeddings. Implemented Retrieval-Augmented Generation (RAG), vector search, Groq LLM integration, and persistent conversation memory for intelligent FAQ retrieval.

- OrangeHRM Test Automation | Cypress, JavaScript. | ([Report Showcase](#))  
Automated critical business workflows include Login, Add Delete employee, Add Delete Job Title, Edit profile, and CRUD operations using Cypress, with comprehensive validation and regression test coverage.

- **Achievements:**

- Awarded Outstanding Student in the Software Testing Bootcamp at Tuwaiq Academy for outstanding performance and active participation throughout the program.
- Passed the Qualifier phase and joined the hackathon, presenting our SOCVision product.

- **Technical Skills:**

AI & Machine Learning:

- Python
- Machine Learning
- Deep Learning
- LLMs & Generative AI
- Retrieval-Augmented Generation (RAG)
- FAISS
- LangChain
- LangGraph
- NLP
- Computer Vision
- Scikit-learn
- PyTorch
- TensorFlow

Backend & Cloud:

- FastAPI
- REST APIs
- Docker
- Kubernetes
- AWS (Bedrock, EC2, S3, Lambda)
- Git & GitHub
- CI/CD Pipeline
- Model Deployment
- MLOps
- Vector Databases

QA & Automation:

- Cypress & Playwright
- Manual Testing & Test Automation
- API Testing
- Functional, Regression & Smoke Testing
- Security Testing (Burp Suite)
- Performance Testing (Apache JMeter)
- Test Case Design & Bug Reporting
- STLC, SDLC & Agile
- Jira

Frontend:

- React
- Next.js
- HTML
- CSS
- JavaScript

- **Soft Skills:**

- Communication
- Leadership.
- Problem-Solving.
- Analytical Thinking.
- Flexibility and Adaptability.
- Collaboration and Teamwork.
- Report Writer

- **Languages:** Arabic, English.
